FRONT LOAD WASHERS

Fast Forward your Laundry

You'll save up to 20 minutes on each full-size load without sacrificing cleaning performance with TurboWash™ technology. Twin spray nozzles, and an atomizing rinse deliver effective cleaning while saving time. Spend less time doing laundry and more time doing the things you love. What would you do with 20 extra minutes?

Deep Clean with Steam

Not only does LG Steam Technology penetrate fabric to remove soil and enhance cleaning results, it also removes common household allergens. The Allergiene™ cycle gently removes over 95% of common household allergens, like dust mites and pet dander from even the most delicate fabrics. It's so effective it's certified by the Asthma Society of Canada (ASC).

More Free Time

Towers of towels, piles of sweatshirts, and a mountain of jeans? Go for it. The ultra large capacity (4.6 cu.ft.) tub lets you do more laundry in fewer loads. That's time well saved.

All the Right Moves

With 6Motion™ technology, each wash cycle combines up to 6 different wash motions to provide a revolutionary cleaning experience and ultimate fabric care

Count On It

When you buy a washer, you don't want to worry that it won't last. Because the Direct Drive Motor uses fewer moving parts and operates more efficiently, LG confidently backs the motor with a 10-year warranty.

Call, Connect, Resolve

SmartDiagnosis™ uses self-diagnosing technology that can communicate 24/7 with LG customer service over the telephone providing you with comfort and reliability.
